## Why Select Coffetek?

Coffetek has more than 30 years experience in the design and manufacture of beverage dispense systems. Our products have been successfully exported throughout Europe and as far afield as the Far East and Australasia. In the UK we have built an enviable reputation for equipment simplicity and reliability achieved through exploiting our experience in product design and innovation. Coffetek is a member of the Azkoyen Group of companies, with origins dating back to 1945 Azkoyen specialise in the design and manufacture of a complete range of merchandising systems. With this combined expertise & resource we are able to offer one of the most comprehensive refreshment solutions in the world.

# STEP

# Step Hot Beverage Machine

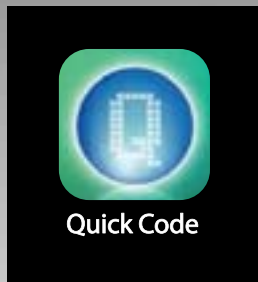

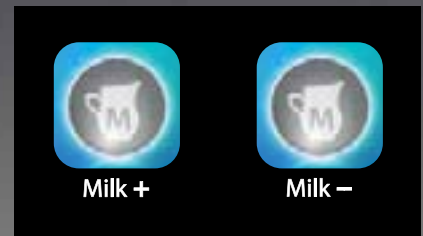

Combining stunning design and proven robust technology, the STEP free standing range from Coffetek is at the cutting edge of vending dispense systems.

Finished in smoked glass the angular design with patented In-Touch user interface is akin to many consumer electronic devices. The large icon buttons make drink selection simple and quick. A 12 inch video display provides user instructions, vend sequence and can be programmed to provide useful information such as nutritional content and calorific values.

Available in single fresh brew tea or Bean to cup \ freshbrew coffee & leaf tea the Step range provides a complete menu of coffee shop style drinks – anything from sophisticated continental coffee

blends to fresh leaf tea and indulgent hot chocolates, the in touch selection system allows you to fully customise your drink, altering the amount of sugar & milk to be added along with preparing the drink weaker or stronger – the choice is yours.

Once you have created a perfect beverage, the unique quick code function provides a selection number for rapid choice the next time you select a drink.

## In-Touch User Interface

Incorporating patented technology the selection system on the Step range provides a simple icon driven user interface, making it simple to select the required drink - touch & go.

- **Large open cup station** - enhances the user experience allowing full view of your drink being prepared
- **Pin code facility** - the pin code facility allows you to enter a 3 digit code for a single free vend or to enable the jug fill facility for those all-important meetings
- **I-Detect facility** - the I-Detect facility ensures that a cup dispenses every time or your money back! I-Detect also allows you to place your own cup which is automatically detected
- **Payment solutions** - the Step beverage machine can be provided with a range of payment solutions including coins and cashless
- **TextAlert** - simple system to allow real time reporting of machine issues, reducing downtime and improving customer service
- **LED lit serving area** – LED lighting illuminates the serving area allowing you to see your drink being freshly prepared.

## Step Environmental Benefits

The Step beverage machine incorporates the most advanced energy saving mode available, saving up to 30% in energy consumption.

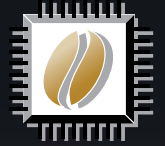

Most systems rely on the machine having a specific time period set to enter a shutdown or economy mode. The Step has inbuilt learning technology which monitors usage and automatically alters the shutdown or economy mode time periods.

**Energy Learn®** Uses the selection system to detect usage

**Energy I-Detect®** An advanced movement sensor detects a user on approach to the machine

- First machine manufacturer to have machine independently tested to the EVA-EMP standard;
  - Consumes just 86 watt hours / hr
- 90% of the Step hot beverage machine is recyclable at the end of life
- LED Lighting option
- Paperless brewing system, no paper waste
- Cup sensor allows use of own cup reducing plastic and paper cup usage

# Step Snack & Drinks Machines

Shown in Step black gloss

## Palma H

Available in the four configurations detailed below the Palma H has a specification to suit all requirements.

Supplied in a dual zone format the Palma H is able to dispense cold drinks as well as a range of sandwich and food products\*.

## Palma B

Offering complete flexibility the Palma B can dispense chilled cans and bottles at the single press of a button.
